## Directions:

Print the hundreds chart(s) that best suit the needs of your students, I've included both a numbered and a blank version. Students will follow the directions, coloring the spaces to reveal the mystery picture. I've also included a plain hundreds chart. I like to print the plain chart on different colors of copy paper, then cut them into jigsaw puzzles for my students to put together. To see a brief video of how I do that, click on the picture at right or visit my youtube.com channel.
